## Press Release

### Screws and Nails in Roadways

Over the past week, several locations in Big Lake, Zimmerman, Orrock, and rural Sherburne County Roadways have been hit with individual(s) throwing screws and nails in the driving lanes. This has caused damage to a variety of vehicles including one of our squad cars. We are working diligently to try to identify those responsible for this disgusting act, including reviewing video from adjacent businesses.

As of today, we have received 39 reports of screws/nails that caused damage to tires on vehicles. If your vehicle was damaged in the City of Big Lake, please make a report online so we are aware of it. You can do this at: <http://biglakemn.org/449/Make-a-Police-Report>

We would also welcome information from anyone who has knowledge of the suspects in this case. Please contact Investigator Rich Berg: [rberg@biglakepolice.com](mailto:rberg@biglakepolice.com) or 763-251-2987.
