

**\*\*\*BIG LAKE COMPOST SITE WILL BE TEMPORARILY CLOSED\*\*\***

The Big Lake Compost Facility will close on September 12, 2016 due to construction.

The construction will entail grading and installing an asphalt surface at the compost site. The purpose of this construction project is to provide a more user friendly compost facility for the residents of Sherburne County. Construction is tentatively scheduled to start the week of September 12, 2016. A completion date has not been established and is dependent on the contractor's schedule. Please check the City of Big Lake website at <http://www.biglakemn.org>, on the City of Big Lake Facebook page, and the West Sherburne Tribune newspaper for construction updates.

Sherburne County residents can use the compost sites in Elk River, Becker and Zimmerman. Your compost card will work at all four sites, all four facilities have the same gate system, and you do not need to obtain a new card. Please check with each facility on times of operation and rules.

If you have any questions you can call the Big Lake Public Works Department at 763-263-2268.

City of Elk River Yard Waste Site – 19000 Proctor Road, Elk River, MN 55330  
City of Becker Yard Waste Site – 12456 153<sup>rd</sup> Avenue SE, Becker, MN 55308
